

大三1

This is a detailed topographic map of a mountainous region in China, showing contour lines, roads, and various landmarks. The map is color-coded with green, yellow, and red areas, likely representing different land use or administrative divisions. Key features include a river flowing through the center, several bridges, and numerous small settlements and temples. The map is oriented with North at the top, indicated by a compass rose in the upper left corner.

The map shows a complex network of roads and paths, with several bridges crossing the river. The terrain is rugged, with many steep slopes and valleys. The map is divided into numerous small, irregularly shaped areas, each labeled with a number, possibly representing land parcels or administrative units. The colors used are green, yellow, and red, which may indicate different types of land use or administrative boundaries.

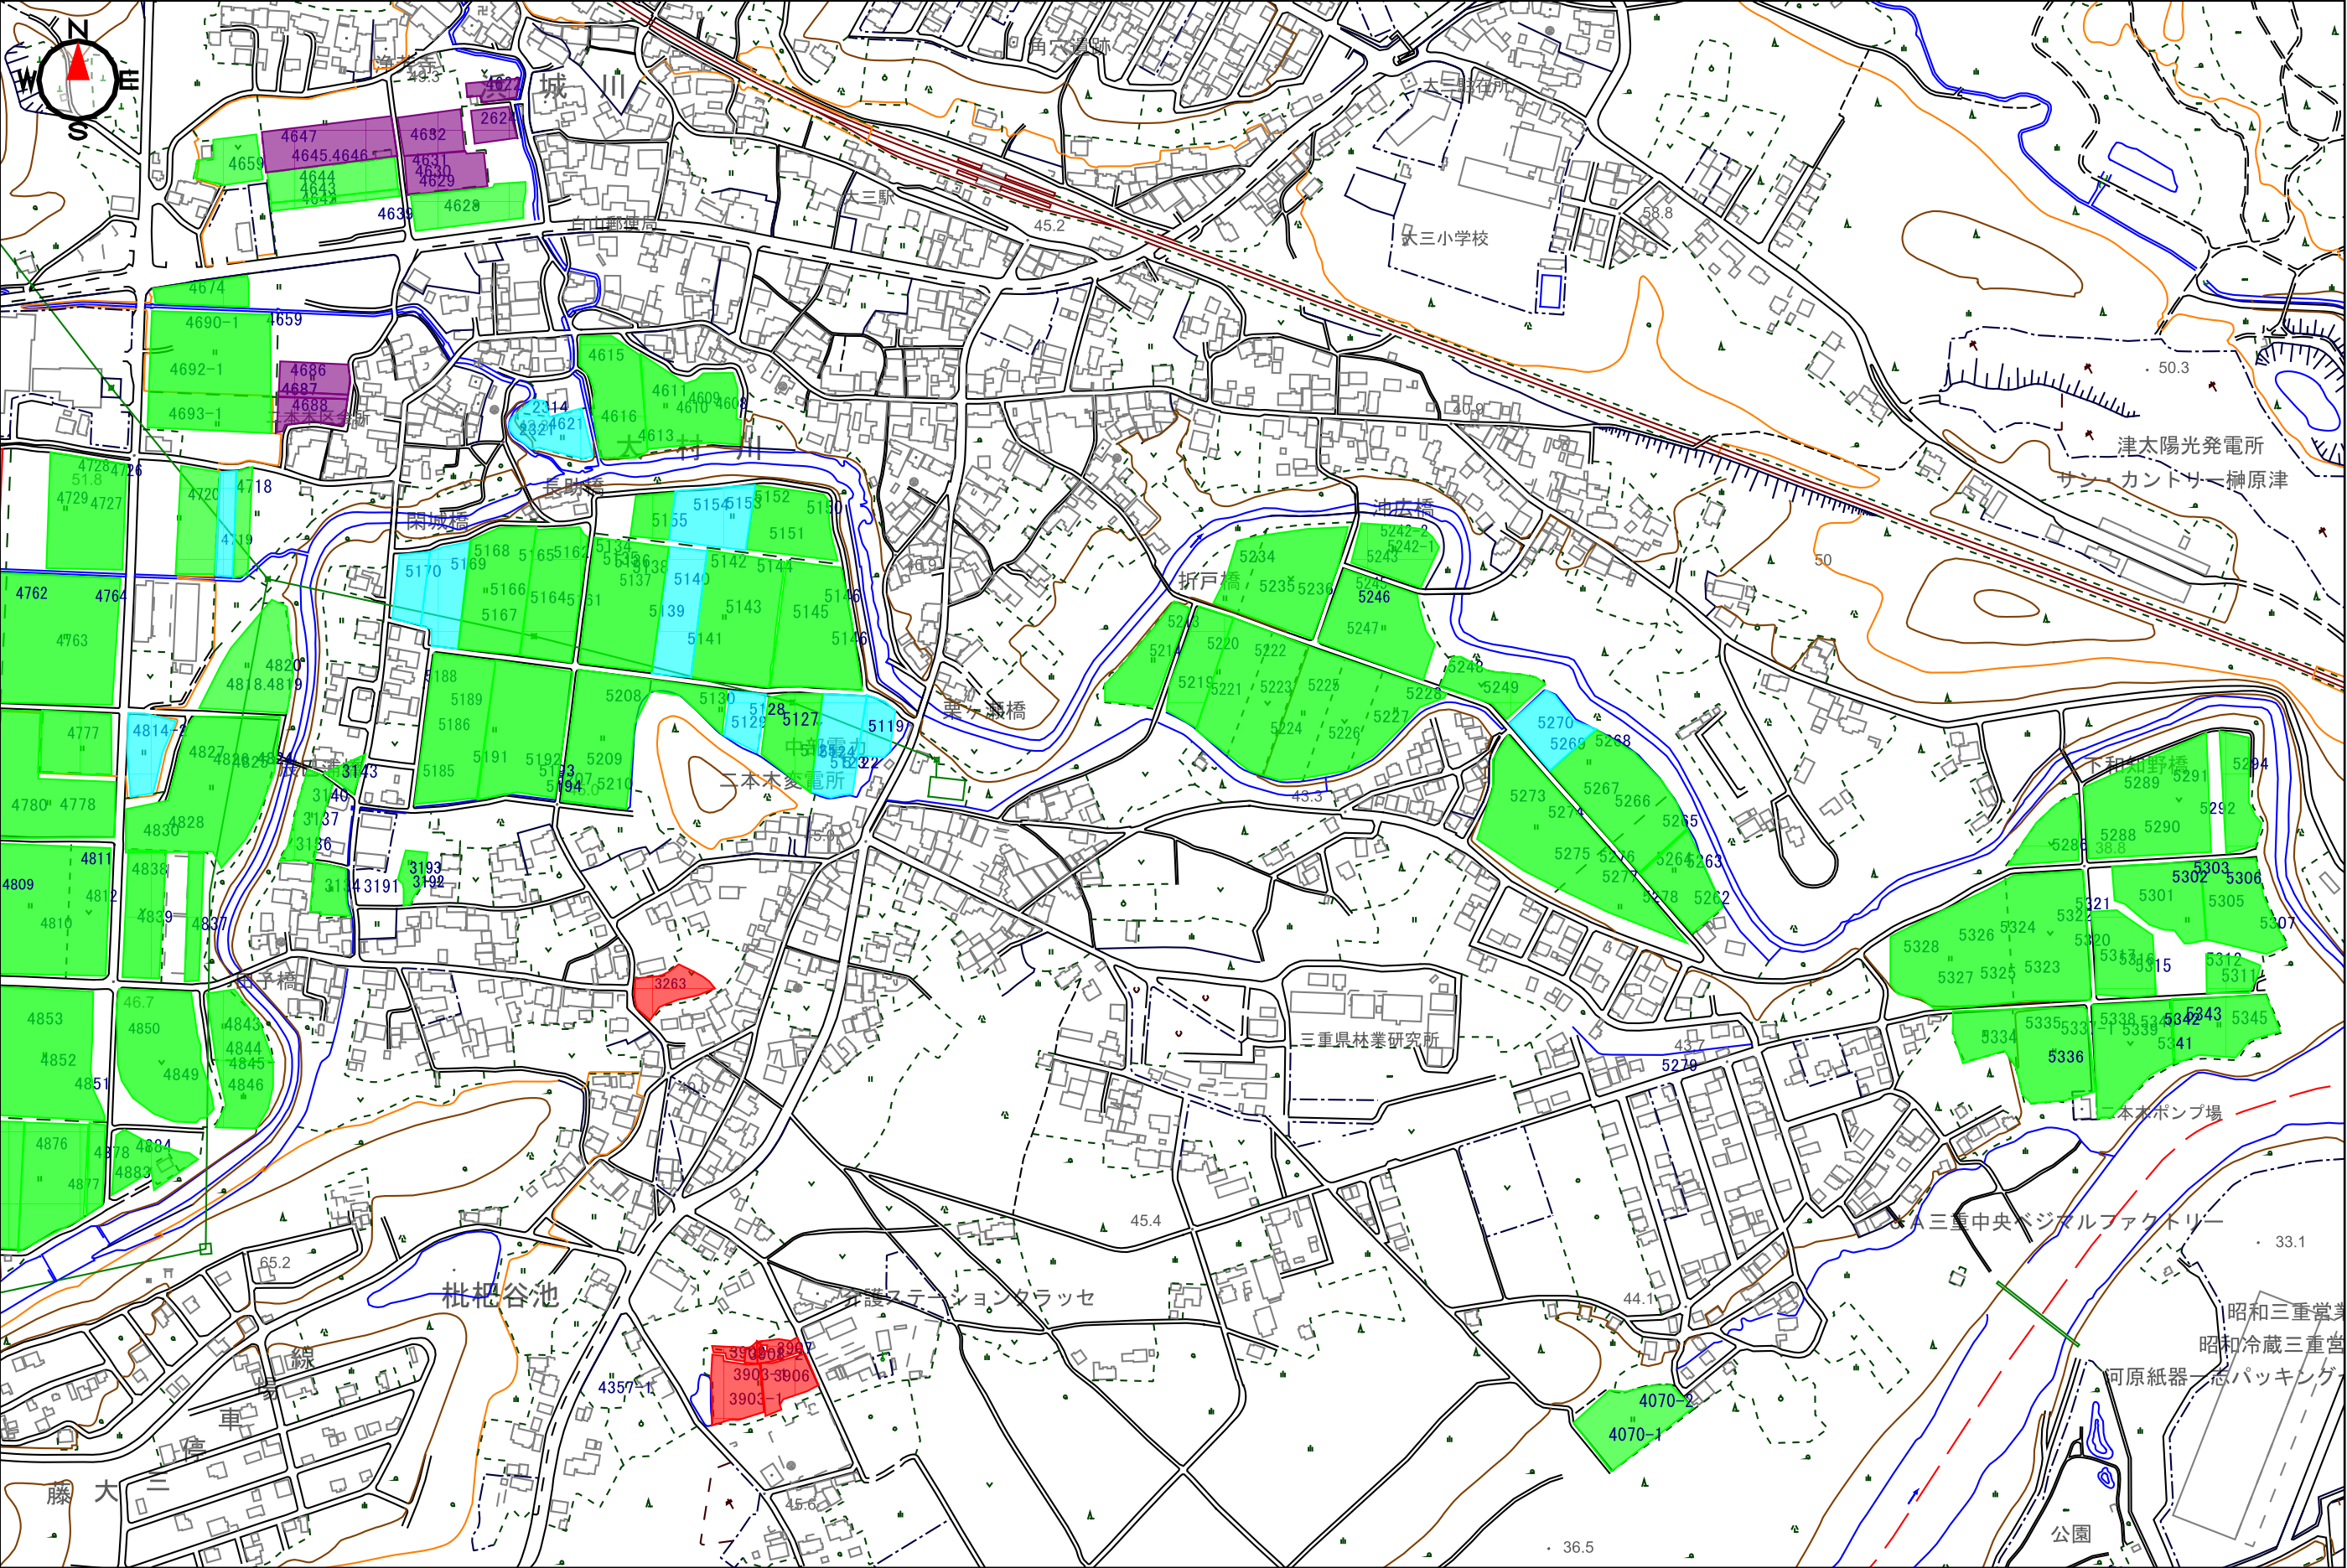

Key landmarks and locations include:

- Geographical Features:** 西谷池 (Xigu Lake), 上西谷池 (Upper Xigu Lake), 高橋古墳群 (Gaoqiao Ancient Tomb Group), 白山町南出 (Shanbaiming South Exit), 枇杷谷池 (Pibaguo Lake).
- Settlements and Temples:** 延壽寺 (Yanshou Temple), 城山 (Chengshan), 寺念寺 (Sini Temple), 藥師堂 (Yueshi Hall), 松名寺 (Songming Temple), 長歌寺 (Changge Temple), 中本寺 (Zhongben Temple), 本木電氣所 (Honki Electric Station).
- Infrastructure:** 高橋橋 (Gaoqiao Bridge), 白山橋 (Shanbaiming Bridge), 関城橋 (Kancheng Bridge), 子橋 (Zi Bridge).

The map is a detailed representation of the terrain, showing the relationship between the land, water, and human-made structures. The use of color and contour lines helps to visualize the topography and the layout of the region.
