

Speed limits on many residential roads in Japan have dropped this September!!

↓ The legal speed limit of the roads listed below is still **60 km/h** ↓

1

Roads that have a center line, a speed limit sign or a vehicle lane

2

Roads where vehicular traffic is separated by direction due to the road structure or by fences.

3

Highways and Roads connected to highways.

4

Vehicle-only roads

Even when driving within legal speed limit, always be aware of roads and traffic conditions, weather and visibility, and drive safely.
