

**The government has announced
“a state of Emergency ” for Mie Prefecture.
(2021.August 27 – September 30)**

※The virus has turned into a very infectious “mutant strain”. It has been reported that the mutant strain can be transmitted even when the 3Cs (Closed spaces, Crowded places and Close-contact settings) are observed.

**The number of COVID-19 infections has been increasing
at EXTREMELY high rates in Tsu City!**

New infections in July

132 people

New infections in August

906 people

【Important actions to stop the infection】

- **Avoid outings except for necessary travel such as commuting, going to school or grocery shopping.**
- **There are many people who do not have symptoms even if they are infected. Even if you don't have clear symptoms like a cough or fever, always wear a mask. Chatting without a mask can transmit the virus.**
- **Do not have home parties and barbecues.**
The infection risk rises when many people eat together for a long time even outside.
- **If you are not feeling well, you should not go to work or school and avoid contact with others.**
